

Cable Sheath MANGE CABLE

The cable sheath MANGE CABLE neatly stows the cables, protects them and prevents them from getting covered with dust. It also avoids the danger of heating for the coiled cables.

Quick and easy installation: thanks to the tool, the sheath "swallows" the cables, even if they are already connected at both ends. It can easily be removed and reused. We can add cables afterwards.

The installation is quicker than the spiraled sheath. More protective than a split sheath because it doesn't remain open. Operating temperature from -60 ° C to + 110 ° C.

1 Cut the sheath to the desired length. Gather all cables into the tool. Close the tool.

2 Insert the pointed part of the tool into the end of the sheath.

3 Hold the sheath with one hand and slide the tool: the cables are "swallowed" by the sheath.

4 A cable can be pulled out at any intermediate position.

Industrial packaging

The MANGE CABLE cable sheath was originally designed to streamline wiring in industry and building.

Choice of 5 diameters: 8 mm, 15 mm, 20 mm, 25 mm, 32 mm. Colors : black (+ silver for diameter 20 mm).

Each roll is delivered with one tool. Additional tools can be bought separately.

| Ø | Colors | Delivered with one tool | | Additional tool |
|-------|--------|-------------------------|------------------|-----------------|
| 8 mm | Black | 100 m | <i>MC08N100M</i> | <i>MC08</i> |
| 15 mm | Black | 50 m | <i>MC15N50M</i> | <i>MC15</i> |
| 20 mm | Black | 30 m | <i>MC20N30M</i> | <i>MC20</i> |
| | Silver | | <i>MC20A30M</i> | |
| 25 mm | Black | 20 m | <i>MC25N20M</i> | <i>MC25</i> |
| 32 mm | Black | 15 m | <i>MC32N15M</i> | <i>MC32</i> |

Desktop packaging

The MANGE-CABLE cable sheath has found another application in the office and at home: neatly store the cables behind the computer equipment, TV, audio...

Diameter : 20 mm
2 colors : silver or black

Packaging suitable for self-service sale: 1.50 meter roller + 1 tool in a blister that can be placed on a shelf or suspended to a spindle.
