Reed's Cordless Power Pipe Beveler quickly and easily deburrs and bevels plastic pipe of 2" and larger diameter. This lightweight tool creates fast, smooth cuts in the field with ease. Extremely useful on most PVC glued joints and some sizes of bell and gasket joints. Easily adjustable for bevel length, **RBIT1** router bit evenly cuts a 15° external bevel up to 5/8" long. Or use the optional **RBIT2** router bit to create 12° bevels up to 1" long. Always defer to pipe manufacturer specifications for bevel recommendations.

For internal bevels on plastic conduit of 2" or more, electrical and utility contractors appreciate the ability to make pipe interiors snag-free. The **CPBKIDKIT** is a complete kit for ID beveling. The **CPBKIT** can be converted to an internal beveler with the optional ID Beveler Shroud (**CPBIDS**).

The Cordless Power Beveler Kit (**CPBKIT**) consists of the beveler attachment powered by a 22,000 RPM, 18V cordless die grinder with a 4 Amp Lithium-ion battery. The grinder has more than sufficient RPMs to provide smooth cuts. The included **RBIT1** cutting tool is a four flute, carbide router bit which delivers consistent, quick cuts.
