WRENCHES

6

ADJUSTABLE WRENCHES

FEATURES

- Triple-coated nickel-chrome exterior finish to resist rust.
- Precision-ground jaw slides make for the **smoothest action**.

With hardened and tempered, forged alloy steel handles, phosphorous bronze springs and a triple-coated nickel-chrome exterior finish, Reed Adjustable Wrenches are constructed of the finest materials available. Precise, parallel jaw surfaces ensure good grip of nuts. 22° 30' angle allows for closest quarter work on hex nuts. Slip-resistant handle, lower cost, blackened adjustable wrenches of the same construction are also available.

CHROME
