

OLBUCKT1**OILERS****FEATURES**

- **Ruggedness** of Reed's metal drip pan/chip tray is superior to competitors' plastic pans.
- Sturdy nozzle made from **solid aluminum** (not from thin tubing).

Reed Oilers effectively deliver threading oil as the gun-and-trigger approach makes it easy to pump oil directly on the work. The rugged and completely portable Reed **OLBUCKT1** comes with a 20-gauge steel bucket and steel drip pan/chip tray along with oil gun, a 60" industrial-grade hose and one gallon of dark oil. Drip pan/chip tray is durable metal and outlasts competitor's plastic pans. The oiler system double-filters and recirculates oil as the chip tray catches the big waste pieces and the filter strains out any small particles. Oil gun features a sturdy nozzle made from turned aluminum. **OLBUCKT1** ships with one gallon of Reed Threadguard dark cutting oil. **OLKIT1** includes the oil gun, hose, cap, clamp and seal.

NOTES: Approximately one gallon of oil in the bucket is required to meet the minimum fill line for hose penetration. USE REED DARK OR CLEAR THREADGUARD CUTTING OIL FOR BEST RESULTS. Please recycle or dispose of used threading oil according to the regulations of user's own state or country.

Catalog No.	Item Code	Weight	
		lbs	kg
OLBUCKT1*	06150	21.0	9.5
OLKIT1	06158	2.5	0.9

*Includes 1 Gallon of Oil, #06120.

✓ WHY REED?

Much stronger and longer-lasting than oilers with plastic drip pans/chip trays. 60" (not 54") hose maximizes user convenience. Both features eliminate downtime and save money.
