

PEX CRIMPERS

FEATURES

- **Crimps rings** easily, giving good connections.
- Crimpers are the right tools for PEX systems because they **properly seal** the rings without distortion.
- Each Reed copper ring crimper includes a go/no-go gauge and an Allen wrench.

PEX Crimpers squeeze the copper rings used on PEX brass fittings. PEX systems are used for potable water lines, radiant heat, snow melt and ice rink systems, among other applications. The design of these PEX crimpers eliminates tool marks and distortion on the rings. The tools crimp rings easily, making PEX installation a breeze. For one-hand use on $\frac{1}{2}$ " and $\frac{3}{4}$ " PEX, consider the **PEXOH12** or **PEXOH34**.
