

## INTERNAL PIPE CUTTERS

### FEATURES

- Conveniently cut from the inside (i.e. drain pipes or sprinkler drops, etc) using a standard 3/8" drill (not included).
- Exclusive, adjustable guide on IC1SL and IC3/4SL doubles as a **depth gauge**.
- Abrasive or saw toothed blade option.

Reed Internal Pipe Cutters cut pipe from the inside: below floor level or in the ceiling in new construction, around pools, and for replacement of closet flanges. Heat-treated steel, saw-toothed blades on the **IC1S**, **IC1SL** and **IC3/4SL** make for fast cutting. The **IC1A** comes with an abrasive blade for areas where the blade may come in contact with concrete or other hard surfaces which would destroy a saw tooth blade. All internal pipe cutters fit in a standard 3/8" drill (not included). During use, flats on the larger cutters keep the cutter from slipping in the jaws of the drill while a lock washer on the smaller cutters keeps the blades from slipping. All saw tooth internal pipe cutter models cut plastic pipe aggressively and can cut wood for sink lugs. IC1SL and IC3/4SL feature an exclusive, adjustable guide that doubles as a depth gauge. The IC3/4SL is exclusive in its 3/4" pipe diameter.

### ✓ WHY REED?

SL models offer exclusive, adjustable guide and depth gauge making it easier to cut from inside pipe where other tools won't go.

## CLEAN REAM EXTREME™ PLASTIC PIPE FITTING REAMERS

### FEATURES

- Clean leftover pipe and solvent cement residue from PVC, CPVC or ABS fittings.
- **Reduce labor time and materials costs** by reusing the fittings.
- Available in 7 sizes and fit into standard 1/2" drills (not included).
- Sturdy kits keep reamers organized and clean.

Money-saving reamers are designed to clean out the old or broken pipe and leftover solvent cement from a fitting so the fitting can be reused. In this era of green living and recycling, try these reamers on PVC, CPVC or ABS to save time and material costs. Plastic Pipe Fitting Reamers fit into 1/2" electric or cordless drills. PPR reamers work great for vent lines, drain lines and water lines. The carbide cutting insert provides a cutting edge on each side. Rotate before replacement and receive three bonus cutting edges.
