

ALUMINUM PIPE WRENCHES HEAVY-DUTY

FEATURES

- Light and strong.
- **Titanium-aluminum** alloy handle is heat-treated for maximum strength.
- Offset wrenches provide **longer swing** and **better access** to **hard-to-reach places**.

Reed aluminum pipe wrenches offer tighter tolerances for a snugger wrench, "beefier" housing for a stronger wrench, and textured paint for a better grip. Offset aluminum wrenches have similar construction to RW series wrenches with forged, alloy steel hook jaw and heel jaw, along with longer swing for hard-to-reach places.
