FEATURES

- Quickly chamfers pipe using drill power, eliminating user fatigue when making multiple cuts/chamfers.
- Deburrs inside and outside simultaneously, in just seconds.
- Produces smooth, consistent chamfer on PVC and CPVC, eliminating leak channels that can be caused by improper chamfer.

The Chamfer Tool attaches to an electric or cordless drill (not included) to chamfer both the inner and outer diameters of plastic pipe. PVC and CPVC pipe joints require a chamfer and Reed's PB series chamfers create a smooth, consistent, 15° chamfer in seconds. These chamfer tools are available in a kit consisting of 2", 3" and 4" sizes in a jobsite quality case or individually by size.

Catalog No.	Item Code	Description	Weight	
			lbs	kg
PBKIT	04660	PB2, PB3 & PB4 with case	6.6	3.0
