

DMPVC

DMPVC COMPLETE

PVC/PE DRILLING MACHINES †

FEATURES

- Drill through the pipe wall while the system is **under pressure**.
- Drill feed rate can handle PVC, C900 and PE wall thicknesses up to 1 1/8".
- Steel parts are plated or powder epoxy coated for **corrosion resistance**.
- New, **one-piece**, stainless steel boring bar assembles easier.

The PVC/PE Drilling Machine is used to cut through the pipe wall via the corporation stop inserted into the service saddle while under pressure. The **DMPVC** drilling machine consists of the base unit and corporation (corp) adapters in a carrying case. PVC/PE shell cutters are sold separately. **DMPVCBASE** drilling machine consists of the base unit in a storage tube, allowing the customer to purchase necessary corp adapters and shell cutters. **DMPVC3/4** and **DMPVC1** kits include one shell cutter, one corp adapter, DMPVCBASE and a storage tube. **DMPVC COMPLETE** ships in a plastic toolbox and includes the DMPVCBASE along with corp adapters and PVC/PE shell cutters for both 3/4" and 1" drilling projects. NPT to CC corp adapter converters, and a 7/16" socket wrench complete the set.

Catalog No.	Item Code	Size Inches	Weight	
			lbs	kg
DMPVC	04402	3/4 - 1	8.4	3.8
DMPVCBASE	04401	3/4 - 1	3.7	1.7
DMPVC COMPLETE	04404	3/4 - 1	11.0	5.0
DMPVC3/4	04418	3/4	4.0	1.8
DMPVC1	04420	1	4.0	1.8
