SC49

SOIL PIPE CUTTERS

FEATURES

- Great for gray water applications.
- Reed **innovations** have improved upon the original cutter.
- Soil Pipe Cutters apply chain pressure to snap the pipe.
- **Captured screw** in SC49 assures proper alignment.

The fastest way to cut cast iron soil pipe, clay pipe and small diameter concrete pipe is with a chain pipe cutter. Reed's design provides stronger jaws and more durable adjusting screws compared to the competition. Some parts are even interchangeable.† Reed soil pipe cutters are available in a single stroke **SC59** model and a ratcheting **SC49** model for close quarter work. Multiple use 1/2" male ratchet wrench ships with SC49 models. No-Hub® Roller Kit is standard on all models.

For cutting ductile iron pipe, Reed recommends **HINGED CUTTERS** ON P. 18 and **LOW CLEARANCE ROTARY** CUTTERS ON P. 19.

✓ WHY REED?

First introduced by Reed, the captured screw makes the SC49 close-quarter soil pipe cutters both easy to use and less costly. The screw does not have to be manipulated into place which reduces screw and cutter breakage.
