

TELESCOPING TUBING CUTTERS

FEATURES

- Great choice **for tight spaces**, where more than a mini cutter is needed.
- Grooved roller permits close-to-flare cuts.
- **Easily cut** copper, brass, aluminum or steel tubing.

Telescoping Tubing Cutters are a good choice for tight spaces as their feed screw telescopes to advance the cutter wheel to the pipe. This means the cutters remain a consistent size throughout the cut and do not require extra space. **TC11** with strong, aluminum alloy body and nickel-chrome finish, makes a clean, square cut. Cutter has telescoping feed screw, fold-out reamer, grooved rollers and a spare cutting wheel. **TC14** telescoping tubing cutters move smoothly and offer a pencil reamer. **TC14** features a spare cutter wheel.
